TUES 16 NOV LABORATORY OF PSYCHICAL RESEARCH.

VISITOR COMMENTS.

Very helpful when my old Android phone wouldn't download. Thanks to the loan of a phone! Fascinating collection, which I had heard of, but never visited before. You really raised my spirits!

Very interesting experience, atmospheric great setting Very helpful staff
Thankyou!

A fascinating mix of technologies, beautifully presented. I enjoyed the mix of spatialised sound and the sound from the objects themselves. A real window into an era of research. Thanks for presenting this!

Fabulously worthy insight.

[redacted]

Absolutely fascinating – great use of technology!

TUES 16 NOV LABORATORY OF PSYCHICAL RESEARCH

VISITOR COMMENTS

Really interesting - enjoyed the sound recordings

Fascinating immersive experience - a great introduction to an extraordinary man - thank you!

Amazing Links between sound + object. Really enjoyed.

Fascinating! Learned a bit + a cool immersive experience. Thanks!

WONDERFUL EXHIBITION. THANK YOU!
Very interesting exhibition. Thank-you.

Excellent installation - very creative and clearly the beginnings of great potential for new forms of display integrating archival material props & creative sound composition.

I really enjoyed the connection of object, place and sound. The equipment is fascinating.

V. good - nicely put together & well paced for short visit. More like this pls!

Interesting & fun.

VISITOR COMMENTS

Brilliantly haunting installation - eerie, atmospheric and educational! And such a perfect space for it as well.

Wonderful and haunting installation - so clever, thank you!

Amazing! [redacted]

Enjoyed it very much Thank you

[redacted]

Very well done, we had a lot of fun, thanks you!

[redacted]

Thx canvas! Thankyou.

15/11/21

really, really interesting
A friend of mine is a medium so this connects to experiences she has had
- moving objects
- recordings
- tappings

Very atmospheric - the room was a perfect choice - !

[redacted]

really impressive exhibits, the technical virtuosity of the locators and sound effects can ease you into what you come to realise is an eerie combination of materials

exceptionally done

thank you

[redacted]

Mon 15

Very good show!
I felt a breeze on my neck!

Mon 15/11/21

Awesome, thought provoking show. Thanks!

VISITOR COMMENTS

[redacted] College of Psychic Studies

Thankyou so much for bringing to life the sounds of the 1920's seance and laboratory of Harry Price. Brilliant!

[redacted]

Interesting and intriguing and I am a sceptic. While I ~~can't~~ believe it isn't true no proof. Very helpful guide to exhibition ☺

[redacted]

Very nice! Thank you!
It's a shame there are no ghosts and spirits in this world. What a let down!
If god exists, I am disappointed! 3/5 for lack of spirits
5/5 for exhibition.

11:05 Subject begins to write a comment. Having heard the Resonance FM show related to the project, subject decided to attend the installation. Subject began a bit confused about the virtues and technological requirements of Augmented Reality App but having worked out the flow, commended the artist/researchers for their work. There are no doubt many hours more of fascinating tape archive materials which I would dearly love to be able to access. Seeing them and hearing the notes in relation the objects in the room give the curiosities of early psychic research in the UK, real presence.

Really interesting project - quite overwhelming and difficult to make sense of at times!
The app was also buggy - required exiting + entering after each QR code.
I enjoyed the atmosphere and combination of objects, thank-you.

Super interesting and well executed piece v. immersive! ♡

such an interesting way to put together an exhibition using the app to immerse us, thank you!

Very enjoyable and interesting way to represent the supernatural. Technology was familiar - which is more than can be said for my old phone. But thank you for lending us yours!

One of the best AR implementations I've seen

Loved the way the audio followed me around the room! Really interesting way to bring alive this subject.

A very unique experience. Never been to anything like this before. Sometimes a bit spine-chilling. Interesting exhibits

really enjoyed it. Fascinating insight into historic psychical research. very atmospheric. Shame only 1 of our phones were new enough for the app.

Only one phone in our 5 could run the app. I'd had rather read more about the interaction. I'd prefer that to random noises.

Wonderful installation - beautifully put together from a technical standpoint, but also a superb selection of exhibits. I learned, and I enjoyed! Many thanks.

[redacted]

Fascinating and wonderfully evoked collection which brings the period to life very well. The combination of technology with 'supernatural' is under-pursued in my opinion, since technology often demonstrates how weird the hidden world is (quantum theory etc.)!

SAT 13 NOV LABORATORY OF PSYCHICAL RESEARCH.

VISITOR COMMENTS.

Thankyou! It worked really well with the old artefacts in front of you and the immersive audio recordings. Listening through headphones is also a lot more immediate and direct. Great work.

THANKS FOR THE INSTALLATION — I FEEL LIKE LOOKING INTO THIS PROJECT

[redacted]

Quite interesting project. introducing us at the 19th London time, when researching for a trace Mediums became a news actions until today days. Thank you for the experience.

— [redacted]

Thank you for a wonderful return to the nostalgia of the early 20th c. Wonderful atmosphere performance!

— [redacted]

Very interesting. Great performance piece/ atmospheric. Well done.

VISITOR COMMENTS

An atmospheric experience.

Amazing – brilliant experience

loved getting the realisation that while technology has changed in measuring physical phenomina to explain the inexplicable the search continues.

Evocative combination of technology, historical artifacts and sound.

Very good! an interesting mix of items & sound, brings to life what happened during the search

Really interesting experience, quite a mystery how the exhib. worked but adds the central matter! Thanks a lot [redacted]

Fascinating! Thanks.

Very interesting. Liked the use of the App.

Very interesting. would like to hear about recent scientific evidence

15/11/21

Very interesting, informative. Friendly and helpful staff made the visit more enjoyable.

[redacted]

15/11/21

Very interesting idea, Thanks for putting this exhibition on.

15/11/21

Interesting immersive experience. I would have liked more context on the subject. Thank you.

15/11/21

I liked the effect once the QR codes had been activated. More intro + context would have been beneficial.

Really enjoyed installation - would love to attend a longer one with more information. Particularly enjoyed how the sounds came in and out as you moved around - very effective!

15/11/21

Very interesting, good use of technology. Put more exhibitions like this on.

[redacted]

15/11/21 — Wonderful installation - really well-presented, informative & helpful organisers, thought-provoking
